Columbia College Chicago Thesis Policy

All theses produced to fulfill graduation requirements and recorded on the student's college transcript will be housed in the College Archives located in the Columbia College Chicago Library.

Guidelines for Deposit

Theses must conform to the following guidelines:

**Each thesis is to be submitted in whatever format is customary for the field. If a thesis is typed, it is to be submitted in paper form. A CD copy accompanying the paper thesis will enhance used and its presence will be recorded in the catalog record.**

- The cover page is to follow the model illustrated below for all theses. It is essential that the author's name and department be present. The author's name should appear as it does on the college diploma.
- The thesis must be an official copy with the original signatures of faculty thesis advisors appearing on the cover page. The official thesis should be clean and not marked with comments and corrections.
- A 25- to 50- word abstract describing thesis contents should accompany the work.
- For typed theses, a 1.5 inch left margin is required to allow for library binding.
- Three-dimensional objects and original artwork are not included in the Library thesis collection. Students submitting theses with such components are asked to submit photographs of the object along with the thesis.
- Media components accompanying written theses, such as CDs, cassette tapes, 35mm slides, DVDs, CD-ROMs or other programs are accepted as appendices to the main text document. Such appendices are required to be clearly labeled and described and include application program specifications in paper text form. Individuals should be aware that some media formats are non-permanent and may become obsolete over time.
- The thesis is to be turned in to the student's departmental office prior to graduation. That office will then transfer the thesis to the Library.
- A signed copy of the **Thesis Reproduction Permission Statement** must be signed by the student in order for College staff to photocopy the thesis in whole or in part for personal use by researchers. This form must be bound within written theses and must accompany the thesis in any format when transferred to the Library.

**Document Order for Written Theses:**

1. Title/Cover Page
2. Abstract
4. Thesis Reproduction Permission Statement

It is recommended, but not required, that written theses be printed on acid-free paper for preservation purposes. Individual programs or departments may require additional copies of the thesis for their files.

Guidelines for Access

The bibliographic records of cataloged theses are accessible in the WorldCat Catalog. Theses are kept in the College Archives and made available to researchers for “library use only” upon request. Copyright ownership of the thesis remains with the author. Photocopies of materials requested for individual research will be made in accordance with rights granted to libraries and archives under Sections 107 and 108 of the **Copyright Law** (Title 17, U.S. code). A thesis may not be extensively photocopied without prior written permission of the author via a signed **Thesis Reproduction Permission Form**, unless reproduced for institutional accreditation purposes or if use copies of fragile items need to be made in analog or digital format to preserve the thesis.
